

# ACUVUE®

**Our latest innovation  
from ACUVUE® is here!**

If you're finding you can't read small text like you used to, it might be presbyopia, which happens to nearly everyone in their 40s.

Great news – we now have **ACUVUE® OASYS MAX 1-Day MULTIFOCAL** Contact Lenses in our practice, for crisp, clear vision at **all distances**, in **all lighting** conditions plus **all-day comfort**.

**Book Your Fitting Today**

**Important information for contact lens wearers:** ACUVUE® Contact Lenses are available by prescription only for vision correction. An eye care professional will determine whether contact lenses are right for you. Although rare, serious eye problems can develop while wearing contact lenses. To help avoid these problems, follow the wear and replacement schedule and the lens care instructions provided by your eye doctor. Do not wear contact lenses if you have an eye infection, or experience eye discomfort, excessive tearing, vision changes, redness or other eye problems. If one of these conditions occurs, remove the lens and contact your eye doctor immediately. For more information on proper wear, care and safety, talk to your eye care professional and ask for a [Patient Instruction Guide](#), call 1-800-843-2020, or download the [Patient Instruction Guide](#).
